

## EOne Product Line

### Grinder Pump Stations Designed for Australia

#### Simplex, Duplex and Quadplex Stations

E/One's grinder pump stations are available in simplex, duplex or quadplex design for residential and light commercial applications.

Powered by the market-leading E/One positive displacement grinder pump

Purpose-built for pressure sewer applications

Manufactured in Australia

Certified to AS/NZ 1546.1

Accessories and options available to meet a variety of site and operational conditions

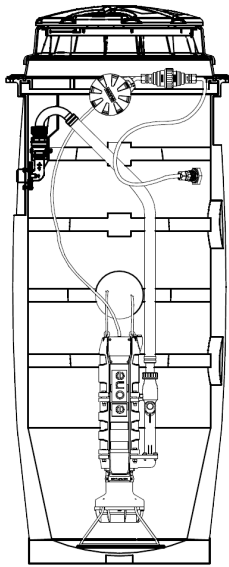

#### Select the Station Size for the Application

Station selection should take into consideration:

- Expected daily inflows
- Regulatory requirements
- Service level expectations
- Budget
